Subject: Three freedoms..
Date: Monday, 30 July 2018 6:28:50 PM

Dear AHPRA.

Three things..

Doctors in various states are forced to recommend to abortion providers against their consciences.

Doctors are not free to have non supportive attitudes towards the vaccination schedule and vaccination as a strategy for disease control.

And now my friend David Van Gend is being treated badly for re-tweeting conservative values in tweets.

This is ridiculous. (all three areas are an infringement on freedom of conscience).

We do not live in a totalitarian regime.

And we don't want to.
